

# Dell Studio 1537 Hard Drive Replacement

Replace your aging hard drive to increase the speed and storage space of your Dell Studio 1537 laptop.

Written By: Zach Dylag

## TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

## Step 1 — Battery

 Ensure the laptop is turned off and unplugged before attempting to remove any piece.

- Place the laptop lid down so the underside is visible.
- Pull battery release switch and gently pull the battery directly away from the switch.

## Step 2 — Back Cover

- Identify the back cover of the laptop.

## Step 3

- Unscrew and remove all of the 6.0mm screws with a Phillips #1 screwdriver.

## Step 4

- Lift the back cover off of the laptop.

## Step 5 — Hard Drive

- Unscrew all of the 6.0 mm screws with a Phillips #1 screwdriver holding the hard drive cage on the computer.

## Step 6

- Lift the hard drive cage out of the laptop.

## Step 7

- Pull tab to unplug the drive from the computer
- Pull the hard drive out of the hard drive tray.

To reassemble your device, follow these instructions in reverse order.
